Spanish (Limited Working)
English (Professional Working)
Portuguese (Native)

Filipe Mota

<Junior Fullstack Developer> @ <Academia de Código_>
Lisbon Area, Portugal

Resume

I started 2020, with the opportunity to do an intentional training of Junior FullStack Developer in the components of the Java language, where I learned to work with the technologies of Spring, Hibernate, JUnit, MVC, Thymeleaf, MySql, etc, and some design patterns. Since then, I learned JavaScript 5 and 6, Html / Css, ReactJs and Dark Patterns for the web components. Ending training in the P5js graphics library recently. You can check the projects completed by me so far.

Projects

ImergeGaveDevJS
Jun 2020

Basic game created during the Alura's #ImersãoGameDev week.

Technologies
HTML5/CSS/Canvas, JavaScript, P5.js

https://github.com/Drete457/ImergeGaveDevJS#imergegavedevjs

Covid19Website - Reactjs
Jun 2020

Web Page demonstrates coronavirus status worldwide.

Technologies
HTML5/CSS/ JavaScript, Reactjs

https://github.com/Drete457/Covid19website

Apr 2020

Made application for Android.

Presentation Video
https://youtu.be/QLL8ov4auc0

Technologies
Java, XML, Gradle, Android Studio and Kanban (supported on Trello.)

https://github.com/Drete457/hackatoners

JAVABANK

Mar 2020 – Apr 2020

JavaBank was a project started in the middle of the bootcamp after we got introduced to the Java fundamentals.

This application was going to be built along the next 5/6 weeks, so we could know what it's like to build an enterprise application to the real world.
The goal was to study some new library, framework or tool and then apply it to the JavaBank application.

We used a bank application that covers: User Interface, Client/Server Architecture, Relational Databases and Database Transactions.

Technologies

Java, IntelliJ, Mac OS, Maven, Hibernate, Java Persistence API, Spring, Spring REST, Spring MVC, Git, Tomcat, JUnit, Mockito, Prompt-View Library, MySQL, API, Rest.

SUPERNOID

Feb 2020

After 4 weeks of learning java, we have to make a game in Java, using SimpleGraphics.

Technologies

Java, Ant, SimpleGraphics

https://github.com/Drete457/hackatoners
